

Invitation

ABB Robotics Welding Seminar  
In cooperation with ESAB and Froweld  
22 September 2011

Power and productivity  
for a better world™

# ABB Robotics welcomes you to our first Hungarian Welding Seminar

## Dear Partner

It gives me great pleasure to invite you to our first Hungarian Welding Seminar in Budapest on 22nd September 2011.

We would like to use this opportunity to show how the efficiency of welding processes can be increased with robot automation.

Industrial robots allow your organization to manufacture more parts in less time, while minimizing scrap and increasing quality.

Often the payback time for a single- or double-robot cell in industrial applications is very low.

In addition to our robots, ABB offers a comprehensive range of products for automated welding cells such as positioners, torch systems and track motion.

The seminar is arranged in cooperation with two of our partners, with whom we have an excellent cooperation:

ESAB

ESAB produces consumables and equipment for virtually every welding application.

<http://www.esab.co.hu/>

Froweld

Froweld represents Fronius, the internationally renowned manufacturer of welding products, on the Hungarian market.

<http://www.fronius.hu/>

We look forward to an interesting and informative day.

Johan Lundberg

Business Unit Manager

ABB Robotics Hungary

# Agenda

---

08:30 - 09:00      Registration

---

09:00 - 09:15      Introduction  
Johan Lundberg... Business Unit Manager  
Zoltán Paplogó... Technical Manager

---

---

09:15 - 09:45      Welding trends and developments  
Presentation by Petr Svoboda from ABB Czech Republic

---

09:45 - 11:45      Presentation ESAB  
Coffee break  
Presentation Froweld  
Discussion

---

12:00 - 13:00      Lunch

---

13:00 - 16:00      Robots live in action in our workshop in various applications, the cells display the combined knowledge of ABB and our partners ESAB and Froweld

---

16:00 - 17:00      Final remarks and closing of the event
