

Scholarship with excellent career for fresh Saudi graduates Join ABB Global Trainee Program!

The GTP for Information Systems is a trainee program of 18-24 months which allows insight into the areas of IS Service delivery, IS Architecture and IS Sourcing.

About the Program:

Because of its global nature, this trainee program allows you to work in three different countries, experience diverse work cultures and job assignments.

The first 6 months are spent in Saudi Arabia. Thereafter, you will either move to the ABB's global headquarters in Zurich, Switzerland or one of our regional holding offices for another 6 months. During the second stage, you can expect to gain an overview of ABB's operations and work on a more strategic level. Finally, the third assignment will bring you to yet another country to gain further international experience and increase your responsibility. After successful completion of the program, you will have the opportunity to take on a permanent position in one of our local units.

We are looking for highly motivated, assertive individuals who are interested in working for our dynamic, global company. As an innovative company on the forefront of technology, we are looking for quality individuals who can make valuable contributions and help steer our company successfully into the future.

Specifically, we are looking for individuals who can demonstrate the following qualities:

- Recent university graduates with above average degrees in computing, Computer Science, Information Systems/ IT or related majors (MSc or equivalent preferred)
- Excellent language skills (fluent in English required, additional languages a plus)
- Mature, professional personality with realistic goals
- Flexible team player with good communication skills

Please note that you are only eligible to apply for the program in case you are of Saudi Arabian nationality or possess a valid work permit. To access further information on the GTP for IS please visit the following link: **GTP for Information Systems**

What's in it for you?

You can expect to join a dynamic and challenging professional environment, where you will obtain an understanding of Information Systems and its interfaces with our other corporate functions in the context of daily interactions within a leading edge technological company.

If you believe that you are the right candidate for the position then send your CV and university grades by email to recruitment@sa.abb.com or call Sultan Alhomeidani on 0555512263.

ABB is a leader in power and automation technologies that enable utility and industry customers to improve performance while lowering environmental impact. The ABB group of companies operates in around 100 countries and employs more than 117,000 people.
